Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 15 February 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. This Office Action is the answer to the communication received on 2/15/2006, which paper has been placed of record in the file.

2. Claims 1-53 are pending in this application.

Claim Rejections - 35 USC § 112

3. Claims 1-2, 5, 38, and 46 are rejected under 35 U.S.C. 112, second paragraph, as being unclear/vague for failing to particularly point out and distinctly claim the subject matter which applicants regard as their invention.

a. Claim 1 teaches a limitation of “determining at least one dynamic property of the vehicle” – it is unclear about that “broad” characteristic of a vehicle – a definition for this “dynamic property” is requested.

b. Claim 2 lacks an antecedent basis for “the inertia”.

c. Claim 5 lacks an antecedent basis for “the at least one of the attitude”.

d. Claims 38, and 46 recite a limitation of “a plurality of sensor for sensing a state of the vehicle” this limitation is unclear because “a state of the vehicle” should be defined to know what means would be used for this measurement – a definition for this term is requested.

4. Claims 3-13, 39-45, and 47-53 are objected because of dependencies.

5. The examiner also respectfully submits that there is a restriction on patentably distinct species, as shown below:

Election/Restrictions

6. This application contains claims directed to the following patentably distinct species of the claimed invention:

Art Unit: 3661

Group I: Claims 1-19 are directed to broad steps to control stability of a vehicle, with US classification 280/5.5.

Group II: Claims 20-45 are directed to a method/system to control a vehicle's stability, with US classification 701/37 (e.g., a suspension control).

Group III: Claims 46-53 are directed to a vehicle having sensors, and a controller to control a vehicle's stability, with US classification 701/48 (e.g., cooperative or multiple controls).

Although pending claims are related for controlling a vehicle's stability; above three different groups of claims clearly represent different inventions: Group I recites steps to perform a procedure including manipulating/adjusting a vehicle's suspension, Group II teaches about changing a vehicle's center of gravity, and a vehicle's stability limits to achieve a stability; and Group III claims a vehicle with combination of limitations of group II; in addition they are defined by different US classifications.

Applicants are advised that a reply to this requirement must include an identification of the group that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added.

Upon the allowance of a generic claim, applicants will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicants must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3661

Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CUONG H. NGUYEN whose telephone number is 571-272-6759. The examiner can normally be reached on 9:30 am - 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, THOMAS G. BLACK can be reached on 571-272-6956. The Rightfax number for the organization where this application is assigned is 571-273-6956.
